EDUCATION

A.A.S. Computer Science | Front Range Community College, Fort Collins, CO

2024 - Current

Relevant Work: OOP, Data Structures & Algorithms, Embedded Systems

Courses: Java I & II, C++, PC Applications, Desktop Databases, Programming Microprocessors, Database & Design Development

PROFESSIONAL EXPERIENCE

Computer Science Tutor & Teacher Assistant

2024-Current

Front Range Community College, Fort Collins, CO

- Tutor students in **Java, C#, C++**, **data structures**, and **OOP** to reinforce understanding of CS concepts
- Provide one-on-one and group support during and outside class hours, improving student pass rates
- Assist with grading, course material prep, and classroom management for CS courses

Customer Service Representative

2023 -2024

Elements Massage, Parker, CO

- Handled client scheduling and payments using booking software and POS system
- Resolved payment conflicts and handled client concerns under pressure
- Maintained and updated records in database for accurate service history

PROJECTS

Job Application Tracker API | Java, Spring Boot, PostgreSQL, REST API [\[Link\]](#)

2026

- Built a **RESTful** backend **API** in **Java** using **Spring Boot** and **PostgreSQL** with **CRUD** functionality, input validation, error handling, and query filtering
- Integrated **Spring Data JPA** and **Hibernate** to map Java objects to database tables, enabling data to persist after restarts
- Managed the full development cycle using **GitHub** Issues, Milestones, feature **branches**, and Pull Requests to follow a more professional workflow

Multiplayer 3D Cooking Game | C#, Unity, Unity Netcode for GameObjects [\[Link\]](#)

2025

- Scripted all kitchen systems, recipe logic, and order mechanics in **C#** using **OOP** and scriptable objects for modularity
- Implemented real-time multiplayer interactions and cooking behaviors using Unity Netcode for GameObjects
- Designed ingredient and recipe systems with scriptable objects, making it easy to add content without code changes

Portfolio Website | HTML, CSS, JavaScript, GitHub [\[Link\]](#)

2025

- Built a personal portfolio in **HTML**, **CSS**, and **JavaScript** that works on any size screen

SKILLS

Programming languages: Java, C, C++, C#, HTML, CSS, JavaScript

Frameworks & Libraries: Spring Boot, Spring Data JPA, PostgreSQL

Tools & Platforms: Git, GitHub, Unity, Unreal Engine, REST API design

Concepts: OOP, Data Structures & Algorithms, CRUD APIs
